Company Introduction

- Company Profile
- Company Development Process
- Company Structure
- Our Sales Team
Dongguan Mingrui Ceramic Tech. Co., Ltd. was founded in 2014 in Dongguan city, Guangdong province, China by Mr. Chengxi Deng. Mingrui always offers Zirconia / Alumina ceramic products that meet the demands of its global customers by manufacturing innovative solutions in a timely manner. Our experienced engineers develop industrial ceramic parts for an array of industries to include: Electrical, Appliance, Mining, Oil & Gas, Energy & Power, Food & Medical, Agriculture, Chemistry, Aerospace, even other high-end fields.
Company Certificates

Our products certified by CE, ROHS, REACH, SGS.
Workshop and Equipments
One-stop production, from R&D materials (powder) to the final products, control the quality of every production link well.
Company Structure

CEO

Factory Director
- Production Department
- Marketing Department
- Quality Control Department

Administrative Director
- Technical Development Department
- Administration Department
- Finance Department
- Logistics Department

Sales Manager
- Foreign Trade Department
Win-win Situation
Mingrui always adhere to these five concepts strive to achieve a win-win situation!
At Mingrui, we have two professional sales team, all members are with 3-year working experience, keep servicing for overseas customers.

Product Introduction

Zirconia Ceramic & Alumina Ceramic

- Ceramic Guide
- Ceramic Flange
- Ceramic Spacer
- Ceramic Ring
- Ceramic Plate
- Ceramic Sleeve
- Ceramic Tube
- Ceramic Pin
- Ceramic Rod
- Ceramic Nozzle
- Ceramic Plunger
- Ceramic Shaft
- Ceramic Valve
- Ceramic Nozzle
- Photovoltaic Ceramic
- Ceramic Pin
- Ceramic Tube
- Ceramic Pin
- Ceramic Rod

- Ceramic Flange
Product Properties Sheet

Advantages:

1. Refractory.
2. Self Lubricating.
3. Long Service Life.
4. Good Polished Surface.
5. Environmental and Healthy.
6. Superior Mechanical Strength.
8. Good Insulation Performance Precision.

Due to these outstanding properties, Ceramic Products are used in a wide range of industrial and advanced applications. And a lot of practical applications prove that our ceramic products have reached a state of high standard and quality.

Our Service

Pre-sale
Be Your Technical Adviser

Sale
Be Your Designer and Producer

After-sale
Be Your Solution Expert

We can make the products according to your drawings, custom the color, size, and other specifications.
Core Technologies

Sintering Technology 01
Molding Technology 02
Grinding Technology 03

04 Laser Drilling Technology
05 CNC machining Technology
06 Polishing Technology
07 Laser Marking Technology

We have a advanced technical team with more than 200 people and more than 180 machines.
Marketing proportion

- Domestic Market: 33%
- International Market: 67%
